

## Group Data Table

Each group member's name must appear on the list below. Use this data table while making measurements outside. Return this original group data sheet to your instructor. Penalties for data errors, assessed to all group members, are based on the data in this table. You must be listed as a member of the group in order to use this data. Unless your name appears on one of the group data tables, your grade on this lab will be zero.

**Group Members:**

_____	_____
_____	_____
_____	_____
_____	_____
